To visit Harmony:

I-71/75 to Florence/Union exit. Go west on US 42. Continue 3.5 miles to entrance on left.

HARMONY

A sense of place. A sense of peace.

Welcome to Harmony – a community unlike any other. Harmony is a place to live and a place to gather. A place where the streets are lined with trees, the porches are made for interaction, and the neighborhoods are unique and have a rhythm all their own. A place that celebrates wide-open spaces and the beauty of the land. A place where living life in perfect harmony truly does come easy.

A sense of balance.

Harmony has been designed with nostalgia in mind, drawing upon the historic architecture found in early neighborhoods. The tree-lined streets, abundant parks, and small-town setting are reminiscent of yesteryear. Yet the overall look is very modern – with homes that offer the latest features and neighborhoods that are within walking distance of the planned Union Town Center.

A sense of belonging.

With so many acres devoted to open space and recreation, Harmony hits all the right notes for gathering. Parks, sidewalks, bike trails and nature trails beckon. Play areas for kids of all ages abound. A 2-acre lake with a lighted fountain, seating areas and pedestrian bridge provides a beautiful place to relax. And a Community Center stands at the heart of it all – complete with three pools, and exercise facility, a party room and an amphitheater for community concerts.

A sense of community.

Harmony is part of a bigger picture called the *Union Town Plan* – developed by the Boone County Planning Commission. With defined housing placement, ample parks and sidewalks, unique streetscapes and distinctive architectural features, Harmony is the first residential community of its kind in Northern Kentucky.
